Re: Request for timeframe extension

Dear Mr. Jensen

We regret that we need to request an additional extension of time to submit our final reclamation plan. Our delay is due to the fact we are in the process of purchasing additional property. We have been working with the property owner, but it is a family trust at this point, which ends up taking longer to get approvals from all involved parties. We have signed an agreement with the property owner, but the exact amount of property that they are willing to sell is still being contemplated. We have been told that the family is close to agreeing to the quantity and they should be able to tell us in the next week or so.

We have now obtained a current aerial survey and once we know the limits of this new property we can complete our plans and the remainder of calculations for the reclamation work and bonding.

We appreciate DOGM's understanding with this matter. We think it would be a waste of all of our time to complete the plan with out this property, and then come in and have to amend the plan and approval process in just a few months. We are doing everything we can to move this process along, and will submit our information to you as soon as possible. We request the new date for submission of the plan be extended to May 31st, 2005.

Thank you in advance for your help in this matter.

Sincerely,

Lakeview Rock Products, Inc.
